NATIONAL HIGHWAYS AUTHORITY OF INDIA
APPLICATION FOR EMPANELMENT OF “SR. ROAD SAFETY AUDITOR & TEAM LEADER” AND “ROAD SAFETY ASSISTANT” FOR NHAI PROJECTS

General Information

1. The Government of India has entrusted to the National Highways Authority of India (NHAI) the responsibility for the development, maintenance and management of about 77,358 km of National Highways including the task of ensuring road safety which is of paramount importance. The Government has directed NHAI for taking engineering measures to ensure the safety of road users on the National Highways. With this objective, NHAI intends to invite applications from the interested Personnel for Empanelment as Sr. Road Safety Auditor & Road Safety Assistant for carrying out safety audit of the project highways at various stages like Detailed Project Report Stage, Development/Design Stage, Construction stage, Pre-opening stage and Operation & Maintenance stage in accordance with the safety requirements set forth in Schedule - L of the Model Concession Agreement (MCA) of the PPP/HAM projects on Design, Build, Finance, Operate and Transfer (DBFOT) basis and Schedule - H of the Model Concession Agreement (MCA) of the Operation and Maintenance (OMT)/ TOT projects and Clause 10.1 of EPC Agreement, O&M Agreement & Item Rate contracts along with any other provisions as stipulated in the relevant agreements as per the roster to be prepared by NHAI after Empanelment.
2. The PPP projects on DBFOT / HAM/ EPC basis basically constitute up-gradation involving construction of 2/4/6-lane highway including bridges and tunnels; widening and rehabilitation of bridges and culverts; construction of high embankment/ elevated structures/ ROB/RUBs/VUPs/LVUPs/PUPs/CUPs, wayside amenities etc. along the existing highways including provision of realignment and bypasses. Similarly, OMT projects constitute operation and maintenance of 2/4/6 - lane highway including bridges and tunnels. The construction works under such projects involve use of modern equipment and construction practices / techniques. As per the terms and conditions of the Concession Agreement(s), the Concessionaires are required to develop, implement and administer a surveillance and safety programme for providing a safe environment on or around the Project Highway and or comply with the safety requirements set forth in Schedule - L of DBFOT/ HAM Agreements and Clause 10.1.5 & 10.1.6 of EPC Agreement and Schedule - H of OMT/ TOT Agreement in development, construction, operation & maintenance phases of a Project. However, the safety audit work shall be carried out as per IRC/NHAI/MoRT&H guidelines.
3. The personnel shall apply as an individual as a Sr. Road Safety Auditor or Road Safety Assistant.
4. The personnel who have been debarred by MoRT&H or any of its implementing agencies including NHAI and the debarment is in force as on the date of application, need not apply as their application shall not be entertained.
5. This RFP/ Empanelment document is neither an agreement nor an offer by the NHAI to the prospective applicants or any other person. The purpose of this is to provide interested personnel with information that may be useful to them in the formulation of their application. Each applicant should, therefore, conduct its own assessment

about the assignment before submitting the application.

6. Please note that:
 - (i) The cost of preparing the application/proposal shall not be reimbursable as a direct cost of assignment; and
 - (ii) NHAI is not bound to accept any of the application/proposal received by it and reserves the right to annul the selection process at any time prior to Empanelment, without assigning any reason thereof and shall not be liable for any expenditure incurred by the applicants.
7. In order to avoid conflict of interest, any personnel associated with the Concessionaire/Contractor of any of the project highway as its Design Consultant and / or Construction Supervision Consultant/Independent Engineer/Authority Engineer shall not be eligible to carry out road safety audit for the same project.
8. Those personnel who were engaged by NHAI/MoRT&H for any project as Design Consultants for preparation of Detailed Project Reports or Supervision Independent Engineer or Consultant shall not be eligible for the same project, even after Empanelment.
9. The personnel have an obligation to disclose any such situation factual or potential conflict that impacts their capacity to serve the best interest of NHAI, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to disqualification/dis-empanelment of the personnel or the termination of its Contract and/ or any other action as deemed fit by NHAI at any stage.
10. It is NHAI's policy that the personnel observe the highest standard of ethics during the selection and execution of such contracts, if assigned work on the basis of roster prepared adopting random sampling after Empanelment. In pursuance of this policy, the NHAI:
 - (a) Defines, for the purpose of this paragraph, the terms set forth below as follows:
 - (i) "Corrupt practice" means the offering, giving, receiving, or soliciting, directly or indirectly, anything of value to influence the action of a public official in the selection process or in contract execution;
 - (ii) "Fraudulent practice" means a misrepresentation or omission of facts in order to influence a selection process or the execution of a contract;
 - (iii) "Collusive practices" means a scheme or arrangement between two or more consultants with or without the knowledge of the Client, designed to establish prices at artificial, non-competitive levels;
 - (iv) "Coercive practices" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in a procurement process, or affect the execution of a contract.
 - (b) Will reject an application for Empanelment, if it determines that the personnel recommended for award has, directly or through an agent, engaged in corrupt, fraudulent, collusive or coercive practices in competing for the contract in question;
 - (c) Will declare an applicant ineligible, either indefinitely or for a stated period of time to be empaneled if at any time it determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing, a contract; and
 - (d) Will have the right to include a provision requiring consultants to permit the

NHAI to inspect their accounts and records relating to the performance of the contract and to have them audited by authorized representatives of NHAI.

11. Applicant shall not be under a declaration of ineligibility for corrupt and fraudulent practices. Furthermore, the personnel shall be aware of the provisions on fraud and corruption as stated above.
12. At any time before the submission of application, NHAI may for any reason, whether at its own initiative or in response to a clarification requested by personnel, modify the documents by amendment. Any amendment shall be issued as Addendum and would be hosted on NHAI Website/ e-tender portal, which will be binding on them. NHAI may at its discretion extend the deadline for submission of the proposal.
- 13.1 The applicants shall not submit more than one application for the individual. The Name of bank, date of payment, transaction number etc. should be clearly visible in the receipt. The application form without proof of payment of application fee will be rejected without any intimation.
- 13.2 **Submission of application:** An Applicant can submit only one application for the position listed at Para 15.1. The hard bound application form along with requisite enclosures are to be submitted by Post/ Courier/ By Hand on dispatch section following address on or before the date of submission of application:
The General manager (Tech.)
Road Safety Division
National Highways Authority of India
G-5 & 6, Sector-10, Dwarka, New Delhi-110 075
Tele: 011-25074100/200/extn.1512
Email: arkale@nhai.org
 - a) An applicant shall download the form from NHAI website and prepare application duly filled as per RFP, complete in all respects.
 - b) The applicant shall also enclose with application, details of payment.
14. **ACCESSING OF APPLICATION FORM FOR EMPANELMENT:**

To participate in the empaneling process, it is mandatory for the applicant:

 - a. To apply in the prescribed application form only. The application form along with document can be downloaded from NHAI website <https://www.nhai.gov.in>.
 - b. The application shall be submitted in English language and all correspondence shall be in the same language.
 - c. Interested Applicants shall register themselves with the National Portal for Infrastructure Consultancy Firms & Key Personnel, i.e., 'INFRACON' at www.infracon.nic.in along with the credentials uploaded on the INFRACON site. The copy of INFRACON CVs is to be included with the application.
 - d. Each page of the application form should be signed by the applicant. Application should be submitted online only with all pages sequentially numbered at the bottom right-hand corner of each page, e.g., by writing page 1 of 10 on page 1, if total pages are 10.
 - e. The amendments/ clarifications related to the Empanelment, if any, will be hosted on the NHAI Website.

- f. NHAI shall not be responsible for any delay, damage, loss or non-submission of application before application due date. Incomplete applications shall be rejected without any intimation. Further, NHAI reserves the right to accept/ reject any or all applications without assigning any reason thereof.
- g. The applicants selected for Empanelment will be intimated by post/email and the same shall also be hosted on the website.
- h. Only empaneled applicants shall be allotted the work/assignment as per the roster prepared by NHAI and pursuant to the submission of requisite documents as annexed with the RFP. The payment of services of Safety Audit to be allotted will be on the basis of fixed rates. (Excluding GST) as per payment Schedule given in the RFP.

15. Eligibility Requirement:

- 15.1 The applicants should demonstrate experience in review of road/ bridge projects designs from safety consideration and conducting safety audits of on-going road projects/ work zone safety audit/ Traffic Planning etc.

Qualification and Competence of the applicant:

(i) Sr. Road Safety Auditor-cum-Team Leader

Essential Qualifications:

- a. Graduate in Civil Engineering from Recognized University.
- b. Minimum 10 years of experience (from the month of graduation) in highway sector in position associated with preparation of DPR/ Supervision/ Construction/ Safety Audit/ Work Zone Safety / Traffic Planning of 2/4/6/8-lane Expressway/National Highway/State Highway projects.
- c. 15 days Road Safety Audit Training Certificate from IIT/NIT/CRRI/NATPAC (National Transportation Planning and Research Centre, Kerala) prior to 12.01.2023 or IAHE;
- d. Have a minimum of three years practical experience in Road Safety Audit at DPR/Construction/Operation & Maintenance stage.
- e. Experience in at-least Five Road Safety Audits. At least Three of the Five Safety Audits must be at a design stage.
- f. The age shall not be more than 70 years.

(ii) Road Safety Assistant

Essential Qualifications:

- i. Graduate in Civil Engineering from recognized University.
- ii. Minimum experience of 2 years (from the month of graduation) in highway projects associated with preparation of DPR/ Supervision/ Construction/Safety audit/Work zone safety/Traffic Planning of 2/4/6/8 lane Expressway/National Highway/State highway projects.
- iii. 15 days Road Safety Audit Training Certificate from IIT/NIT/CRRI/NATPAC (National Transportation Planning and Research Centre, Kerala) prior to 12.01.2023 or IAHE;
- iv. The age shall not be more than 35 years.

15.2 The applicant shall furnish the following details

- A) For evaluation of CVs of Applicant for this Empanelment, copies of CVs as

extracted from INFRACON website shall be submitted; CVs other than these shall not be evaluated. CVs extracted from INFRACON portal must be **“VERIFIED” on or before date of submission of application**. CVs shall also include all supporting documents. In absence of supporting documents, the Authority shall evaluate the application to the best of its interpretation. The decision of the Authority shall be final and binding in this regard. CVs must be duly signed by applicant.

B) The applications not complying with the above-mentioned stipulations and found to be deficient in any respect shall be summarily rejected without any intimation.

C) Applicants should note that only authenticated information should be provided in the application format. Information provided by the applicant will be verified and if any of the information provided by the applicant is found incorrect/false, then it may lead to rejection of application summarily at any stage even after empanelment or award of work. Applicants submitting false/incorrect information or suppressing the information shall be debarred from empanelment of NHAI for up to 2 (two) years and shall not be eligible to participate in empaneling in NHAI and MoRT&H or any of its implementing agencies including NHAI.

2.0 Terms of reference

Empanelment of Independent “Sr. Road Safety Auditor & Team Leader” and “Road Safety Assistant” for Conducting Safety Audit of National Highways in various stages.

The National Highways Authority of India (NHAI) has mandate for development, maintenance and management of National Highways entrusted to it and for matters connected therewith or incidental thereto. It invites application from certified road safety auditors for empanelment as Independent Senior Road Safety Auditor to conduct Safety Audit during Design, Construction and Operation stage of National Highways. The empanelment shall be for an initial period of five years which may be further extended based on the requirement of NHAI, and subject to satisfactory performance. Final shortlisting for empanelment shall be made based on interaction/interview of candidates possessing the requisite Qualification and Experience.

2. Essential Qualifications

2.1 Sr. Road Safety Auditor & Team leader

- i. Graduate in Civil Engineering from Recognized University.
- ii. Minimum 10 years of experience (from the month of graduation) in highway sector in position associated with preparation of DPR/ Supervision/ Construction/ Safety Audit/ Work Zone Safety / Traffic Planning of 2/4/6/8-lane Expressway/National Highway/State Highway projects.
- iii. 15 days Road Safety Audit Training Certificate from IIT/NIT/CRRI/NATPAC (National Transportation Planning and Research Centre, Kerala) prior to 12.01.2023 or IAHE.
- iv. Have a minimum of three years practical experience in Road Safety Audit at DPR/Construction/Operation & Maintenance stage.
- v. Experience in at-least Five Road Safety Audits. At least Three of the Five Safety Audits must be at a design stage.
- vi. The age shall not be more than 70 years.

2.2 Road Safety Assistant

- i. Graduate in Civil Engineering from recognized University.
- ii. Minimum professional experience of 2 years (from the month of graduation) in highway projects associated with preparation of DPR/ Supervision/ Construction/Safety audit/Work zone safety/Traffic Planning of 2/4/6/8 lane Expressway/National Highway/State highway projects.
- iii. 15 days Road Safety Audit Training Certificate from IIT/NIT/CRRI/NATPAC (National Transportation Planning and Research Centre, Kerala) prior to 12.01.2023 or IAHE;
- iv. The age shall not be more than 35 years.

3.0 Submission of Proposal for Empanelment

The applicant shall furnish the following details:

- a. For evaluation of CVs of Applicant for this Empanelment, copies of CVs as extracted from INFRACON website shall be submitted; CVs other than these shall not be evaluated. CVs extracted from INFRACON portal must be **“VERIFIED” on or before date of submission of application**. CVs shall also include all supporting documents. In absence of supporting documents, the Authority shall evaluate the application to

the best of its interpretation. The decision of the Authority shall be final and binding in this regard. CVs must be duly signed by personnel.

- b. The Applicant shall furnish its relevant experience strictly as per format given at Annexure I, II & III. The Applicant must supplement the experience claimed by furnishing the copies of work orders/ experience certificates from client, clearly indicating the project title, actual service provided by the applicant for the project claimed to have been executed.
- c. The Applicant shall furnish the Curriculum Vitae (CV) as per format given at Annexure-I. The CVs must be signed by Applicant on each and every page. Photograph of the Applicant shall be affixed on their respective CV. The contact address with telephone / mobile number, e-mail ID of the Applicant should also be furnished. The CVs must indicate the actual service provided by the applicant in detail.
- d. The applicant is also required to furnish duly notarized undertaking regarding correctness of information, non-debarment/blacklisting etc. on non-judicial stamp paper as per format given in Annexure-II.
- e. It is suggested that the applicant should fill up Annexure-I, vis-à-vis the supporting details vide Annexure I, II & III and any other information with due care so as to avoid any ambiguity.
- f. In case spaces available in the Annexure I, II & III are limited to accommodate all the information, separate sheets may be used for the purpose so that relevant information submitted are adequate, neat and legible.
- g. The applications not complying with the above-mentioned stipulations and found to be deficient in any respect shall be summarily rejected without any intimation.
- h. Applicant should note that only authenticated information should be provided in the prescribed format. If any of the information provided by the applicant is found incorrect/false, then it may lead to rejection of proposal summarily at any stage even after empanelment or award of work. Personnel submitting false/incorrect information or suppressing the information shall be debarred from empanelment of NHAI for up to 2 (two) years and shall not be eligible to participate in empaneling/bidding in any project of MoRT&H or any of its implementing agencies including NHAI.
- i. The NHAI reserves the right to reject any or all applications without assigning any reasons thereof. After evaluation, a panel of applicants will be formed who will be allotted the work on the basis of the roster prepared by random sampling for appointment of Independent Safety team for BOT (DBFOT) /HAM/ EPC/ OMT/TOT/O&M/Item Rate projects of NHAI as and when necessary.
- j. Notwithstanding the formation of these panels, the NHAI may go in for separate empanelment for specific assignments, if it so decides.
- k. The applicant shall not be considered for empanelment if the applicant is debarred/ blacklisted at the time of submission of the application in the NHAI. The applicant

shall submit litigation history/undertaking on non-judicial stamp paper of Rs 100/- duly notarized, to the effect that the applicant has not been debarred or blacklisted by MoRTH or any of its implementing agencies including NHAI or any other government agency, at Annexure-III.

4.0 Test of Responsiveness

Prior to evaluation of Applications, the Authority shall determine whether each Application is responsive to the requirements. An Application shall be considered responsive only if:

- n) it is received by the Application Due Date including any extension thereof;
- o) it is accompanied by the application fee receipt;
- p) it contains copies of applicant's CV as extracted from INFRACON portal;
- q) CVs extracted from INFRACON portal must be **"VERIFIED" on or before date of submission of applications (Copy of print out from INFRACON portal must be enclosed along with the applications).**
- r) 15 days Road Safety Audit Training Certificate from IIT/NIT/CRRI/NATPAC (National Transportation Planning and Research Centre, Kerala) for both Key personnel prior to 12.01.2023 or IAHE;
- s) it contains CVs of applicants for Sr. Road Safety Auditor & Road Safety Assistant duly signed by the Applicant;
- t) it contains the proof of age of personnel are below the age as indicated in essential qualifications;
- u) It contains NOC from their current Employer/Firm for submitting their application.
- v) It contains undertaking from their Employer/Firm that applicant will be available for conducting Road Safety Assignment whenever assigned by NHAI.
- w) All the pages of the Application are signed by the applicant, & serially numbered;
- x) it contains all the information (complete in all respects) as requested in this RFP (in formats same as those specified);
- y) it does not contain any condition or qualification; and
- z) it is not non-responsive in terms hereof

5. **Evaluation criteria:** Only the responsive applications shall be evaluated further for empanelment **An Applicant shall pass in all evaluation criteria to be considered for empanelment as under:**

		15 days Road Safety Audit Training Certificate from IIT/NIT/CRRI/NATPAC prior to 12.01.2023 or IAHE If yes ----- Pass If No -----Fail	
	b)	At least 2years of Professional Experience (from the month of graduation) in highway projects associated with preparation of DPR / Supervision / Construction / Safety Audit / Work Zone Safety / Traffic Planning of 2/4/6/8 lane Expressway/National Highway/State Highway Projects If yes ----- Pass If No -----Fail	
2		The age as on the bid due date of this empanelment shall not be more than 35 years. * If age < 35 years ----- Pass If age > 35 years ----- Fail	

*** It must be noted that the maximum age limit of Road Safety Assistant on the bid due date of empanelment process as well as on the date of safety consultancy work/assignment of any contract package is 35 years.**

Note: Total Professional Experience of CVs shall be considered from the date of first employment of Applicant up to the date as per Employment Record. However, in case date of acquiring minimum educational qualification is after the date of first employment of key personnel, in such cases, total Professional Experience of CVs shall be considered from the date of acquiring minimum educational qualification.

- c) It is mandatory for all key personnel to have completed at least 15 days Road Safety Audit Training Certificate from IIT/NIT/CRRI/NATPAC (National Transportation Planning and Research Centre, Kerala) prior to 12.01.2023 or IAHE. The CV of the proposed Applicant not having completed minimum 15 days certification course shall not be evaluated.
 - i. The applicant shall carry out self-responsiveness of their application with due cross reference to the above-mentioned criteria and submit the same along with the application.
 - ii. The applicant shall carry out self-evaluation of their application with due cross reference to the above-mentioned criteria and submit the same along with the application

1. Empanelment, Allotment, Report Submission and Performance Appraisal of Applicant

- 1.1 National Highways Authority of India (NHAI) has mandate for development of National Highways entrusted to it by Ministry of Road Transport & Highways. As part of this endeavor, the Authority has taken up development of some of the highway projects implemented under PPP/HAM/EPC/OMT/TOT/ITEM Rate/InvIT, etc.
- 1.2 The Model Concession Agreements (MCA)/ Contract documents stipulate that the Concessionaire/Contractor shall develop, implement and administer a surveillance and safety programme for providing a safe environment on or about the Project Highways and/or shall comply with the safety requirements set forth in Schedules/ Clauses of the Concession/Contract Agreement in DPR, Development, Construction and Operation & Maintenance Phases of the Project.
- 1.3 The Agreements also envisage that NHAI shall appoint an experienced and qualified Civil Engineer as a “Safety Auditor” for carrying out safety audit of the Project Highway in accordance with the safety requirements set forth in Schedules/ Clauses for the aforesaid Phases of Project.
- 1.4 NHAI intends to invite independent Sr Road Safety Auditor & Team Leader and Road safety Assistant for carrying out safety audit of the project highway in accordance with the safety requirement set forth in IRC/NHAI/MoRT&H guidelines of projects of various modes such as PPP/HAM/EPC/OMT/TOT/ITEM Rate/InvIT etc.
- 1.5 Safety Auditor shall conduct capacity building/ safety awareness workshop as and when directed on the locations as specified by NHAI.
- 1.6 Safety Auditor has to conduct site visit/inspection during audit of any stage of project i.e., DPR/Construction/O&M. All travelling, lodging & boarding and local conveyance shall be reimbursed by NHAI as follows:
 - a. **Sr. Road Safety Auditor-cum-Team Leader equivalent to General Manager, NHAI**
 - b. **Road Safety Assistant equivalent to Dy. Manager, NHAI**
- 1.7 NHAI will formulate a team of two professionals on roaster basis i.e., “Sr Road Safety Auditor & Team Leader” and “Road Safety Assistant” for conducting safety audit of any stage of national highway.
- 1.8 Sr Road Safety Auditor-cum- Team Leader shall be responsible for conducting safety audit and submission of reports. Road Safety Assistant shall support and undertake various activities as directed by Sr Road Safety Auditor-cum- Team Leader.

- 1.9 PD, PIU to send request for appointment of Safety Audit Team with complete project details on dedicated email id roster_roadsafety@nhai.org with copy to concerned RO.
- 1.10 Requests received up to last date of previous months will be considered for appointment of Safety Audit Team on First come First Basis from the roster of Sr. Road Safety Auditor & Road Safety Assistant.
- 1.11 Letter for intent for project allotment on email for safety audit shall be issued by Road Safety Division, HQ
- 1.12 Safety Auditors shall confirm their availability within 2 days from date of email by HQ along with safety audit schedule for undertaking site visit within one weeks.
- 1.13 Letter to proceed for project safety audit shall be issued on email by Road Safety Division, HQ with a copy to concerned RO & PD.
- 1.14 Project Report shall be submitted on Data Lake 3.0 and one hard copy each to PIU and RO.
- 1.15 Sr. Road Safety Auditor & Road Safety Assistant will submit their invoice to the concerned PIU on submission of report.
- 1.16 PD, PIU to issue completion of assignment within one week on submission of report to Safety Auditors with a copy to Road Safety Division.
- 1.17 Next project will be assigned on receipt of completion certificate from PIU.
- 1.18 It may be noted that the applicant shall be required to ensure timely completion of the safety audit assignment of the project awarded in an effective manner strictly as per RFP. The performance appraisal of the applicant shall be carried out by the Road Safety Division based on the safety audit report submitted and the comments of concerned Regional Officer and Project Director, NHAI. The applicant shall be liable for cancellation of empanelment and debarment in the event of default attributable to them for non-completion /poor performance of their services for a period up to 2 years for undertaking any assignment from MoRTH, NHAI and NHAIDCL.

2. Methodology to be adopted by Safety Auditor

The “Sr Road Safety Auditor & Team Leader” and “Road Safety Assistant” shall conduct the safety audits during DPR stage (Feasibility/Preliminary Design stage as well as at Detailed Design Stage), road design development, project construction implementation and operation/maintenance periods as per the methodology, check lists and procedures approved by NHAI. For this purpose, Sr. Road Safety Auditor-cum-Team Leader, will briefly submit Work Plan and Approach & Methodology for the proposed assignment, based on IRC: SP:88 and established International Procedure/Practice for undertaking road safety audit at various project stages such as DPR, development design, implementation and operation stages. The Road Safety Audit Reports shall be prepared as per the templates given in IRC: SP:88. The report shall also be uploaded on NHAI data lake portal or any other electronic media as prescribed by the Authority.

3. During DPR Stage

- 3.1 Carry out a Road Safety Audit (RSA) adhering to the relevant DPR stage Road Safety Audit as per latest IRC: SP:88 “Manual for Road Safety Audit” and good industry practices; and prepare Road Safety Audit Reports. The audit shall take into consideration all the aspects given in the checklist of latest IRC: SP:88 and other good international practices.

All reports thereof (the “Safety Reports (DPR Design Stage)/Crash Analysis Report”) shall be submitted to the Project Director, NHAI, with a copy to the concerned Regional Officer.

- 3.2 The Project Director will facilitate to provide accident data recorded in e-DAR/i-RAD accident module.
- 3.3 The safety auditor will undertake Analysis of accident data with blackspot identification as per IRC 131 (Guidelines for identifying and treating blackspots) including mapping of chainage wise crashes on strip plan of NH. They shall Conduct Road safety Audit of Existing NH. They shall develop short term Counter measures, Cost Estimate and BOQ and submit a Crash Analysis cum Mitigation Report.
- 3.4 Carryout RSA of Draft feasibility report, Draft DPR report & Technical Schedules as per relevant checklists of IRC: SP:88. The RSA Report for any following Stage should identify the previously recommended enhancements in the design and their incorporation. The RSA reports at the following stages should compare the changes that are duly incorporated in the design in reference to the recommendations from the previous stages. The RSA Reports at all stages should identify any further potential road safety gaps during the audit.
- 3.5 The Project Director shall conduct the Audit Completion Meeting with Road Safety Auditor, DPR Consultant after each stage of audit with and recorded minutes for acceptance/compliance by DPR Consultant.
- 3.6 Safety Audits shall be conducted on Datalake 3.0/ MobileApp. All Safety Audit Reports, Crash Analysis cum Mitigation Reports and MoM shall also be uploaded on NHAI data lake portal or any other electronic media as prescribed by the Authority.

4. During Development Period of Construction Stage

- 4.1 **Road Safety Audit** - Carry out a Road Safety Audit (RSA) adhering to the relevant RSA stage as per latest IRC: SP:88 “Manual for Road Safety Audit” and good industry practices; and prepare Road Safety Audit Report at the design development stage. The audit shall take into consideration all the aspects given in the checklist of latest IRC: SP:88. The report thereof, (the “Safety Report (Design Development Stage”/ Crash Analysis Report) shall be submitted to the Project Director and the Concerned Regional Officer.
- 4.2 The Project Director shall facilitate 3 calendar years’ accident data from (e-Dar/i-RAD) or concerned police authorities to the safety Auditor. The safety auditor shall undertake Analysis of accident data with black spot identification as per IRC 131 (Guidelines for identifying and treating black spots) including mapping of chainage wise crashes on strip plan of NH. They shall submit Crash Analysis cum Mitigation Report evolving package of recommendations, short term measures and long-term measures as per design details and drawings submitted by Concessionaire/Contractor. The Project Director shall provide concessionaire/contractor’ design and duly consented drawings by IE/ approved drawings by AE to the Safety Auditor, one printed color copy and PDF copy containing the design details that have a bearing on safety of Users (the “Safety Drawings”). Such design details shall generally include horizontal and vertical alignments; sightlines; layouts of at- grade/grade separated intersections; interchanges; entry/exit ramps;

road cross-section; bridges and culverts; drains proposal; provision for parked vehicles, slow moving vehicles (tractors, bullock carts, bicycles) and pedestrians; bus bays; truck lay-bys; lighting & Night time Proposals, ITS proposals, and other incidental or consequential information.

- 4.3 The Safety Auditor shall conduct design stage safety audit of design proposals/drawings and **submit Design Development Safety Report** evolving a package of recommendations consisting of safety related measures for the Project.
- 4.4 The Concessionaire shall endeavor to incorporate the recommendations of the Safety Report and long-term mitigation measures in the design of the Project, as may reasonably be required in accordance with Applicable Laws, Applicable Permits, Manuals and Guidelines of the Authority, Specifications and Standards, and Good Industry Practice. If the Concessionaire does not agree with any or all of such recommendations, it shall state the reasons thereof and convey them to the Authority forthwith. In the event that any or all of the works and services recommended in the Design Development Safety Report and long-term mitigation measures fall beyond the scope of Schedule-B, Schedule-C or Schedule-D, the Concessionaire/Contractor shall make a report thereon and submit to IE/AE for further directions from the Authority for funding such works as per Concession/ Contract agreement.
- 4.5 The RSA Report for any following Stage should identify the previously recommended enhancements in the design and their incorporation. The RSA reports at the following stages should compare the changes that are duly incorporated in the design in reference to the recommendations from the previous stages. The RSA Reports at all stages should identify any further potential road safety gaps during the audit.
- 4.6 The Road Safety Audit Report for development stage shall contain audit of proposed detailed design of the project highway including the audit of the Traffic Management Plan included in the design report (during the development stage audit) for the project road identifying enhancement that may be required.
- 4.7 The Project Director shall conduct the Audit Completion Meeting with Road Safety Auditor, Concessionaire/Contractor, IE/AE after each stage of audit and record minutes for acceptance/compliance by Concessionaire/Contractor.
- 4.8 Safety Audits shall be conducted on Date Lake 3.0/ MobileApp. All Safety Audit Reports, Crash Analysis cum Mitigation Reports and MoM shall also be uploaded on NHAI data lake portal or any other electronic media as prescribed by the Authority.

5. During Construction Stage

The audit during the construction stage shall be carried out in reference to the provisions made in IRC: SP:55 (Guidelines on Traffic Management in Work Zones) and following the latest IRC manual for road safety audit, i.e. IRC: SP:88 or any modifications thereof. The safety audit shall be conducted of brown field project sections, bypasses under construction and the existing roads (bypassed).

- 5.1 Review the Construction Staging Plan prepared by the concessionaire in support of project implementation at stages. Examine the Traffic Management Plan (TMP)/ Traffic Control Plan (TCP) prepared and submitted by the Concessionaire/Contractor befitting to the Construction Staging Plans, and identify any gaps or opportunity for improvement

prior to approval of the TMP/ TCP by relevant authority and accordingly prepare an Construction stage safety audit report for TMP/TCP as per the latest IRC: SP:88 (Manual for Road Safety Audit).

- 5.2 The Project Director shall facilitate to provide accident data from (e-Dar/i-RAD) or concerned police authorities to the Sr Road Safety Auditor & Team Leader and Road Safety Assistant. The Sr Road Safety Auditor & Team Leader and Road Safety Assistant shall undertake Analysis of accident data at every four months. The accident analysis shall be carried out for the last 3 years with black spot identification as per IRC 131 (Guidelines for identifying and treating black spots) including mapping of chainage wise crashes on strip plan of NH. They shall submit Crash Analysis cum Mitigation Report within 15 days of site visit evolving package of recommendations, short term/long term measures as required.

Carryout a Construction Stage Road Safety Audit based on latest IRC: SP:88 to ensure correct implementation of the TMP and recommend any interim enhancement that may be required. Inspect the project highway keeping into consideration the construction staging plan for the project as prepared by the Concessionaire and identify the safety concerns/implications of the construction planning including TMP/TCP and recommend enhancement, as required. This shall be including the additional requirements at locations identified as accident-prone locations during “development period” based on the accident data analysis as well as the identified blackspots.

- 5.3 The Project Director shall conduct the Audit Completion Meeting with Road Safety Auditor, Concessionaire/Contractor, IE/AE after each stage of audit with and recorded minutes for acceptance/compliance by RO/Concessionaire/Contractor.
- 5.4 Safety Auditor shall submit the Road Safety Audit Report (Construction Stage), Road Safety Audit Report (Preopening/Completion), Crash Analysis cum Mitigation Report and Safety Audit Compliance Report (Construction Stage) to the Project Director with a copy to Regional Officer, within 15 (fifteen) days of audit as per the template given in IRC SP 88.
- 5.5 Safety Auditor shall also carryout Safety Audit of field compliance of Development Stage Safety Audit Report and previous submitted Road Safety Audit Report (Construction Stage) during subsequent Construction Stage Safety Audit. Safety Auditor shall prepare and submit Safety Audit Compliance Report (Construction Stage), the detailed status of compliance of audit recommendations of the development stage and any previous audit of construction stage. The scope for each of such inspection/audit shall include but not be limited to identifying any gaps in provision of safety features, as per the recommendations of audit at development stage and previous construction stage safety audits.
- 5.6 At the stage of physical progress of 95-100% of construction (as will be suggested by Regional Officer/Project Director), the Safety Auditor shall conduct a Pre-Opening/Completion Stage Audit following the template given in IRC: SP:88. The Safety Auditor has to conduct once audit compliance field visit also as directed by the NHAI on submission of Pre-Opening/Completion audit compliance report by Independent Engineer/Authority Engineer/Concessionaire/Contractor to Project Director.
- 5.7 The construction stage audit shall also include the specific requirements laid out in **Attachment A** of the TOR.

- 5.9 All Safety Audits shall be conducted by Data Lake 3.0/NHAIONE Mobile App. All Road Safety Audit Report (Construction Stage), Preopening/Completion Audit Report, Crash Analysis cum Mitigation Report, Safety Audit Compliance Reports and MoM shall also be uploaded on NHAI data lake portal or any other electronic media as prescribed by the Authority.

6 Maintenance and Operation Period

The audit during the maintenance and operation stage shall be carried out as per the latest IRC manual for road safety audit, i.e., IRC: SP:88 or any modifications thereof. The safety audit shall also be conducted of development and the construction stage as required during maintenance and operation stage as per IRC: SP:55 (Guidelines on Traffic Management in Work Zones).

The Safety Auditor shall carryout the Existing Road/Operation Stage Audit and Investigation of Accident-Prone Locations, which will involve the following activities, but not limited to:

- 6.1 The Project Director shall facilitate to provide accident data either from (e-Dar/i-RAD) or from concerned police authorities, to the safety auditor. The accident analysis shall be carried out for the last 3 years with black spot identification as per IRC 131 (Guidelines for identifying and treating black spots) including mapping of chainage wise crashes on strip plan of NH. They shall submit Crash Analysis cum Mitigation Report within 15 days of site visit evolving package of recommendations, short term/long term measures as required.
- 6.2 Develop/Identify potential mitigation measures in order to curb the frequency and severity of collision. Specify short/long term remedial measures for improvement of notified blackspot.
- 6.3 Submit cost estimate of short-term mitigation measures only.
- 6.4 The Safety Auditor shall submit Road Safety Audit report (Operation & Maintenance Stage), Crash Analysis cum Mitigation Report, to the Project Director and, a copy to the concerned Regional Officer.
- 6.5 The Safety auditor address the comments, if any during the Audit Completion Meeting with recorded minutes for acceptance/compliance by NHAI / Independent/ Authority Engineer/ Concessionaire/ Contractor.
- 6.6 All Safety Audits shall be conducted on Datalake 3.0/ MobileApp. All Safety Audit Reports, Crash Analysis cum Mitigation Reports, Safety Audit Compliance Reports and MoM shall also be uploaded on NHAI data lake portal or any other electronic media as prescribed by the Authority.

7. Deliverable submission period: Within 15 days on completion of Road Safety Audit visit.

8. Deliverables and Payment Schedule

S. No	Report	Fee Payable Schedule for Project Length $\leq$ 25 km			Total Consultancy Fees for Project Length $\leq$ 25 km	Consultancy Fees for Project Length greater than 25 km
		Sr. Road Safety Auditor-cum-Team Leader	Road Safety Assistant	Secretarial Assistance for report preparation payable to Sr. Road Safety Auditor-cum-Team Leader		
1	Submission of Crash Analysis and Road Safety Inspection Report including, i. Analysis of accident data with blackspot identification including mapping of chainage wise crashes on strip plan of NH. ii. Development of Short-Term/ Long Term mitigation measures iii. Cost Estimate and BOQ of Short-term measures	4 days (includes travel time, site visit & report preparation) @ Rs 25,000 per day	4 days (includes travel time, site visit & report preparation) @ Rs 5,000 per day	Rs 10,000 per report	Rs 1,30,000	Safety team input will increase in days as required on pro rata basis and fee payable will be calculated as follows: Rs 1,30,000 + (130000 x length more than 25 km)/ 25
2	Carryout Road Safety Audit of DPR and furnish the Safety Audit Report	4 days (includes travel time, site visit &	4 days (includes travel time, site visit &	Rs 10,000 per report	Rs 1,30,000	Safety team input will increase in

3	Carryout Road Safety Audit during construction stage and furnish the Safety Audit Report	report preparation) @ Rs 25,000 per day	report preparation) @ Rs 5,000 per day			days as required on pro rata basis and fee payable will be calculated as follows: Rs 1,30,000 + (130000 x length more than 25 km)/ 25
4	Carryout Road Safety Audit during Operation & Maintenance stage and furnish the Safety Audit Report					
5	Conducting Safety workshop	2 days @ Rs 25,000 per day	2 days @ 5,000 per day	Rs 10,000 per report	Rs 70,000	Rs 70,000

- i. All travelling, lodging & boarding and local conveyance shall be reimbursed by NHAI on submission of proof of expenses as follows:
 - a) Sr. Road Safety Auditor-cum-Team Leader equivalent to General Manager, NHAI
 - b) Road Safety Assistant equivalent to Dy. Manager, NHAI
- ii. Sr. Road Safety Auditor-cum-Team Leader and Road Safety Assistant shall raise their invoices independently (invoice of Road Safety Assistant is duly verified by Team Leader) to the concerned PD, PIU on submission of report.
- iii. Fee payable shall be excluding GST. GST will be paid as applicable on submission of proof of GST deposition with concerned authorities.
- iv. Payments shall be made by PIU in Indian Rupees, no later than 45 days on submission of invoices including submission of deliverables/report.

WORK ZONE SAFETY AUDIT

Review Contractual Provisions and Establish Work zone Safety Audit Procedure

Review and understand various safety provisions as provided in the contract documents of the particular projects. This should include an appreciation and understanding of the safety provisions as given in various acts, rules and regulations of Gol/State Government where project is situated including MoRTH/Indian Roads Congress (IRC) specifications/codes; safety instructions issued by NHAI from time to time; and safety provisions under the EMP(s) for the project.

- (i) Review the existing systems being followed/adopted by the Concessionaire and IEs in planning, execution, documentations and reporting through collection and assessment of primary and secondary data/information.
- (ii) Identify the major hazards and risks associated with various roads construction activities and establish a work zone safety audit procedure, satisfactory to NHAI.

Task B: Conduct detailed Work Zone Safety Audit and Recommend Remedial Actions

- (i) Carry out a detailed assessment of worksite* safety conditions through site visits in line with the identified risks and hazards associated with various road construction activities. This review and assessment must include, but may not be limited, to the following aspects pertaining to:
 - (a) **Traffic Management Plan:** The Safety Audit Team will review the relevance, adequacy and implementation of the Traffic Management Plan(s) prepared by the Contractors. The procedures followed by the Independent Engineer (IE) / Authority Engineer (AE) with regard to the approval and ensuring compliance on ground also need to be reviewed.
 - (b) **Traffic Safety Measures:** The review should assess the adequacy and quality of various safety measures such as signage, delineation, barricading and lighting in the construction zones in line with the provisions covered in the contract agreement and latest IRC guidelines and other good international practices. The assessment should include various safety aspects/issues pertaining to night time safety measures and safety at/near excavations, structure construction sites, diversions and settlement areas apart from assessing maintenance of existing road surface and riding quality at diversions/detours.
 - (c) **Worker's Safety:** Based on contractual provisions and applicable legal provisions, the review should cover aspects pertaining to provisions and use of Personal Protective Equipment such as helmets, masks, safety harness/belts, boots, gloves, eye and hearing protection devices. The assessment should also include review of safety provisions during operations such as loading and unloading of materials; bar bending and cutting; gas cutting/welding, pile driving, excavation work; working near equipment/machinery; working at heights (including aspects pertaining to ladder, scaffolding, working platform, railing safety); safety during concrete works (including reinforcement erection, formwork and concrete pouring/pumping); drilling and blasting; safety during placement of traffic control devices; tree cutting etc. The compliance with regard to

occupational health and safety precautions in relation to hazards associated with dust, toxic fumes, noise, vibration and biological factors (snake and insect bites) should also be assessed.

- (d) Safety during construction of structures including design and suitability of temporary structural arrangements, structures construction methodologies, etc. Adequacy of the process of review and approval of the Concessionaire proposals with respect to structures construction methodology (ies) including design of temporary structures and erection arrangements by the IE/AE also to be reviewed.
- (e) **Fire Safety Practices:** The assessment should include (a) the risks and hazards associated with storage, transportation, handling and use of various inflammable materials/explosives and (b) precautions and preparedness in case of the fire accident/s at camp/s, plant sites, construction sites and quarries.
- (f) **Electrical Safety Practices:** This should include electrical safety review at plant sites, camp sites and work sites and near habitations.
- (g) **Mechanical Safety Practices:** The review should include general safety precautions/practices during plant, machinery, equipment and vehicle operations and condition of such mechanical devices that are being used for the contract operations. This will include review of the fitness of various plant and machinery (static and mobile), practices with respect to periodic maintenance and licensing/certification of fitness of equipment, as well as suitability of machinery operators including practices with respect to adherence to license /certification/ formal training of operators.
- (h) Dust Control and Suppression Arrangements.
- (i) Storage, transportation, handling and use of various toxic and hazardous materials (including spill management) used in road construction.
- (j) Safety of road-side residents and passers-by.
- (k) **First aid:** The review should include the provision of the first aid arrangements (including life-saving equipment), availability of qualified staff and health checks-up of workers (such as those for drivers/operators), as specified under the regulatory framework.
- (l) **Emergency Response Arrangements:** The review should include an assessment with regards to planning, procedures/processes, warning systems and record keeping.
- (m) **Accident records:** The review should look at whether accident records are being maintained by the Concessionaires/Contractors and shared with the NHAI on a regular basis.
- (n) Housekeeping (including circulation pattern, storage of materials and disposal of hazardous wastes).

4	Any Other Additional Qualification			

Note- Applicant may add additional information, if required, in above format on separate sheet.

9. Work experience details

Sr.No.	Name of Project	Type of Project (DPR/Construction/O&M)	Position Held	Name of Client/Employer (PIU/RO/etc.)	Duration/Year

10. Details of Road Safety Auditor course (15 days):

Sr.no	Name of Course	Duration of Course (Date)	Name of Institute

11. Published papers on Road Safety: -

Note: Applicant must enclose Road Safety Auditor certification course certificate issued by Institute which may be verified by NHAI from its issuer.

UNDERTAKING FROM THE PERSONNEL

I, the undersigned, (Name and Address) undertake that this CV correctly describes myself, my qualification and my experience and NHAI would be at liberty to debar me if any information given in the CV, in particular the Summary of Qualification & Experience vis-à-vis the requirements as per documents found incorrect. I further undertake that I have neither been debarred by NHAI nor left any assignment with the consultants engaged by NHAI / contracting firm for any continuing work of NHAI without completing my assignment. I will be available to undertake the safety audit assignments. If I leave any assignment in the middle of the Safety Audit work, NHAI would be at liberty to debar me from taking any assignment in any of the NHAI works for an appropriate period of time to be decided by NHAI. I have no objection if my services are extended by NHAI for this work in future.

Sub.: Empanelment of Independent “Sr. Road Safety Auditors & Team Leader” and “Road Safety Assistant” - Undertaking - Reg.

Ref: No.

Dear Sir,

1. I, have examined the empanelment document for the aforesaid work and understood its contents, hereby submit my Application for empanelment of “Sr. Road Safety Auditors and Team Leader” and “Road Safety Assistant” for NHAI Projects.
2. The Application is unconditional and unqualified.
3. All information provided in the application, appendices and annexures is true and correct and all documents accompanying such application are true copies of their respective originals.
4. I acknowledge the right of the NHAI to reject my application without assigning any reason or otherwise and hereby waive my right to challenge the same on any account whatsoever.
5. I certify that in the last three years, I have neither failed to perform on any contract, as evidenced by imposition of a penalty or a judicial pronouncement or arbitration award, nor had been expelled from any project or contract nor had any contract terminated for breach on our part.
6. I agree and undertake to abide by all the terms and conditions of the empanelment document.

Yours faithfully,

Letter Of Award (LOA)

To

Name, Address

Sub: Road Safety Audit work for(Project Name). -Acceptance for appointment as "Sr. Road Safety Auditor & Team Leader" and "Road Safety Assistant".

Sir / Madam,

This is to notify you that you as Sr. Road Safety Auditor & Team Leader/ Road Safety Assistant have been appointed for execution of Road safety audit of the subject project as per the roster prepared by NHAI, on the schedule rate as mentioned in RFP for your empanelment, for conducting road safety audit for the aforesaid project.

2. You are requested to submit duly signed acceptance letter as per Annexure-III within the 3 days period from the issue of this LOA.
3. It is intimated that roster mechanism is envisaged to award project wise safety audit.

This issues with the approval of the Competent Authority.

Acceptance Letter

Sub: Road Safety Audit work for(Project Name). -Acceptance for appointment as “Sr. Road Safety Auditor & Team Leader” and “Road Safety Assistant”.

Dear Sir,

With reference to your letter dated *****, I having examined the document and understood its contents, hereby submit my acceptance for appointment as “Sr. Road Safety Auditor & Team Leader” and “Road Safety Assistant” for aforesaid Project.

- 1 All information provided in the, Appendices and Annexure are true and correct and all documents accompanying such Application are true copies of their respective originals.
- 2 I acknowledge the right of the Authority to reject our acceptance without assigning any reason or otherwise and hereby waive our right to challenge the same on any account whatsoever.
- 3 I certify that in the last three years, I have neither failed to perform on any contract, as evidenced by imposition of a penalty or a judicial pronouncement or arbitration award, nor been expelled from any project or contract nor have had any contract terminated for breach on my part.
5. I agree and undertake to abide by all the terms and conditions of the RFP of empanelment. In witness thereof, I submit this acceptance under and in accordance with the terms of RFP of empanelment.
6. I undertake that in executing the above contract, I will strictly observe the laws against fraud and corruption in force in India namely “Prevention of Corruption Act 1988” and amended from time to time.

Yours faithfully,

Letter To Proceed**[Name of selected empaneled “Sr Road safety auditor & Team Leader” and “Road Safety Assistant”]****Address:****Sub:** [project description]- **Letter to Proceed** - reg.**Ref.:** (i) NHAI/RSA/ROSTER/APPOINTMENT/2026/-- - E -office dated.....

(ii) LOA dated -----.

(iii) Your acceptance letter dated.....

Sir/Madam,

Consequent upon Letter of Award issued by this office and your acceptance letter under reference, you are hereby notified to commence the services of Road Safety Audit within 7 days from issue of this letter with intimation to the concerned RO/PD.

The safety audit report along with all enclosures such as drawings, BOQ etc. shall be uploaded on NHAI Data Lake and one printed copy shall be submitted to the concerned PD.

It may be noted that the applicant shall be required to ensure timely completion of the safety audit assignment of the project awarded in an effective manner strictly as per RFP. The performance appraisal of the applicant shall be carried out by the Road Safety Division based on the safety audit report submitted and the comments of concerned Regional Officer and Project Director, NHAI. The applicant shall be liable for cancellation of empanelment and debarment in the event of default attributable to them for non-completion /poor performance of their services for a period up to 2 years for undertaking any assignment from MoRTH, NHAI and NHAIDCL
